FUN AND CONSCIOUSNESS – THE CLASS

Wouldn't you love to have even more fun in your life?!

Author John A. Hugg brings to you a series of readings and discussions of his yet-unpublished work, [Fun and Consciousness: an Emotion Map for Greater Human Fulfillment](#). This book, intended to be an audio book with music, takes you as deep as you can go into life. As he says: “without *consciousness* there is no *life*, and without *fun* life pretty much doesn't feel worth living.”

This class studies one chapter of this 25-chapter book each session. In a style reminiscent of Andy Rooney (“60 Minutes”) John reads as if talking to you individually, and “asks you to think and feel ... a lot!” In a fun way! He shares with you his own deepest thoughts and experiences, and welcomes your feedback. His sharing's have generated many lively discussions and requests for more.

Questions? Call John at 264-2557. **CLASS TIME IS 6:30-8PM EACH EVENING LISTED.**
